PROGRAM NOTES

The Pyramid of the Sun is a massive structure located in central Mexico in the pre-Columbian city of Teotihuacán. The city was named by the Aztecs as the "place where gods were born." One of the largest of its kind in the world, construction of the pyramid began around 100 A.D., and when finished, measured 738 feet across and 246 feet high. Although some of the pyramid's detail has been lost over the years, most of the actual structure remains intact to this day.
