About *The Black Horse Troop*

The Black Horse Troop was completed December 30, 1924, at Sousa's Sands Point, Long Island estate. It was played for the first time about ten months later on October 17, 1925, at a concert of the Sousa Band in the Public Auditorium, Cleveland, Ohio - and I was there. I had not been to such an event as this one; I remember that as Sousa's march was being played, Troop A rode onto the stage and stood behind the band to the tumultuous cheering of all. The March King enjoyed a long relationship with the men and horses of Cleveland's Ohio National Guard, known as Troop A.

Once again his special comprehension of the thrilling spectacle of regimental movement produced a compelling musical experience for both the player and the listener, commanding our particular awareness of his use of the trumpets and drums at various dynamic levels.

During the half-century of his career as the most successful bandmaster who ever lived, there was both reason and necessity for his creating these wonderful marches - and among them all *The Black Horse Troop* is a positive standout.

The original edition of *The Black Horse Troop* is scrupulously preserved in this handsome new issue. All I have endeavored to do in my editing is to clarify ambiguous nuances, dynamics, and inconsistent articulations or phrasing that probably arose in the original march-sized format simply because of the cramped character of that miniature page. The visual problem is hereby eliminated, as are the treble cleff mid-range brass and E-flat alto parts, obsolete as doublings; the piccolo in D-flat has been transposed to C. The percussion parts have been separated by instrument and their articulations clarified. The parts, which Sousa provided for regimental trumpets, are incorporated into those for cornets and trumpets.

It is recommended that both the characteristically loose-slung field drum be used together with the conventional snare drum. The bass drum heads' tension should be loose, and the instruments should be played with a hard beater.

-Frederick Fennell

Please note: Our band and orchestra music is now being collated by an automatic high-speed system. The enclosed parts are now sorted by page count, rather than score order. We hope this will not present any difficulty for you in distributing the parts. Thank you for your understanding.

* It is recommended that both the characteristically loose-slung field drum be used together with the conventional snare drum; multiples of both of these will contribute a great and appropriate sound.
