Vorwort

Die Musik von Gottfried August Homilius erfreut sich in den letzten Jahren zunehmender Bekanntheit. Im Vordergrund stehen dabei seine weitverbreiteten Vokalwerke, denen er auch zu seiner Zeit den Ruf als „unser größter Kirchenkomponist“¹ verdankte. Daneben gelten seine spruchsvollen Choralbearbeitungen für Orgel schlicht als „Geheimtipp“ unter Organisten. Die Orgelstunden waren wahrscheinlich überwiegend während seiner Zeit als Organist an der Dresdner Frauenkirche (1755); anderes datiert bereits aus seinen Jugendjahren (1735–1742). Noch 1776 schrieb Friedrich Reichardt, der inzwischen zum „neuesten“ Homilius spielte „jetzt nicht mehr die Orgel“, sei aber dennoch „der größte Organist, den ich jemals gehört, vielleicht in meiner Zeit“.²

Zwei Choralbearbeitungen für Orgel und Melodieinstrument sind seit langem in Neuausgaben greifbar.³ Es sind dies die beiden jungen Homilius, die er 1741 zur Förderung der Organistenstelle an der Dresdner Frauenkirche einreichte.⁴ Damit reiht Homilius sich in die Gruppe von Komponisten ein, die die Choralbearbeitung pflegten, wenn auch jeweils nur mit wenigen Kompositionen.

Seit Beginn der 1990er Jahre, als eine über 200 Seiten starke Sammelhandschrift⁶ vor einigen Jahren hat sich dieses Bild deutlich geändert: Die Zahl der Choralbearbeitungen für Orgel und Melodieinstrument, die Homilius sicher geschrieben sind, ist nun auf 28 angewachsen; woher sie in ihrer Zuschreibung umstritten. Kein anderer Komponist hat sich wohl so intensiv mit dieser Art der Choralbearbeitung auseinandergesetzt wie Homilius.

Sämtliche Choralbearbeitungen von Homilius für Orgel und Melodieinstrument wurden 2008 in der Ausgabe *Die Choralbearbeitungen von Gottfried August Homilius* veröffentlicht. Diese Ausgabe hat allerdings einige Besonderheiten: Sie enthält nicht mehr oder weniger als die Originalfassung, und manche Melodie haben sich im Laufe der Zeit ganz ausgetauscht oder sind neu komponiert. In der Ausgabe wurden 12 Choralbearbeitungen ausgewählt, die noch heute in der Originalnotation als auch klingend aufgeführt werden können. Die meisten Melodieinstrumente sind in der Ausgabe als Melodieinstrumente bezeichnet, was viele Homilius-Bearbeiter auch auf die Choralvorspiele übertragen werden. Die Instrumentalstimme sind dabei in der Originalnotation als auch klingend aufgeführt.

Foreword

The music of Gottfried August Homilius has become increasingly known during recent years. This is largely on account of his widely performed choral works, to which in his lifetime he owed the reputation of being "our greatest church composer."¹ His demanding chorale arrangements for organ have also long been regarded as "hot lines" for organists. Most of his organ works were produced during the period when Homilius was at the Dresden Frauenkirche (1742–1757), but some date from his earlier student years in Halle (1737–1742). In 1776 Johann Friedrich Reichardt, who had meanwhile become the first reuzkantor, "now usually no longer plays the organ, but nonetheless is "the greatest organist in Halle, or perhaps will ever hear in my lifetime."

Two chorale arrangements for organ and a melody instrument have been discovered and are available in modern editions.³ These compositions by the young Homilius, who was in Halle in 1741 together with an application for the position of organist at St. Petri in Bautzen.⁴ In this period he had a small group of composers who cultivated a special genre of chorale arrangements, although only a few of them in only a few compositions.⁵

The discovery a few years ago of a manuscript collection of more than 200 pages⁶ this picture has changed greatly: the number of chorale arrangements for organ and a melody instrument undoubtedly by Homilius has increased to 28, while the authorship of several others is uncertain. Probably no other composer has devoted himself to this genre of chorale composition as intensively as Homilius.

All of the chorale arrangements with a melody instrument known to be by Homilius were first published in the first volume of selected editions of his organ and melody instrument arrangements are based on the original or seldom sung today, and have often been altered or even replaced by other arrangements. The 12 chorale arrangements in this volume, based on hymns which were originally for instruments required are an exception: the instruments required are not specified in the original notation, a fact which is not always reflected in the performance, which is often based on the original notation to the chorale preludes. Therefore the instrumental notation for transposing instruments is given both in the original notation and in the transposed notation.
